

Chairman of the Examination Board

Attendance at Several Undergraduate Seminars

Each student shall successfully complete an undergraduate seminar in the compulsory elective subject (cf. Section 15(2) BPO (Bachelor's Examination Regulations) of 08.05.07). Such seminars should provide information on the academic thesis, presentation and communications techniques, project management and teamwork.

Given that the undergraduate seminar is assessed as an independent exam and its multiple functions produce content overlaps, completion of several undergraduate seminars is not permitted.
