# eduroam configuration iOS EN

This guide was created under iOS 12.3.1. In older versions, the display may be slightly different.

If you already had a connection to the Eduroam Wi-Fi you should remove the old profile beforehand.

### Remove the old profile

1. Settings General Profile select the old Eduroam profile

2. Remove profile

Profile	Profile	
	EDUROAM URZ	
Signed by	iPhone Configuration Utility (B9C82D2C-52D6-4482 A30E-D87CC2A140F4)	-
Description	Netzwerkprofil 'TTLS-PAP' von 'Katholische Universit Eichstätt-Ingolstadt' - bereitgestellt von eduroam®	ät
Contains	WI-FI Network Certificate	
More Detai	ls	>
	Remove Profile	

#### 3. enter device PIN

4. Remove

### Install a new profile

1. Download the current configuration file from the website: https://cat.eduroam.org

c. The advantage of downloading via this website is that the application itself recognizes the operating system and offers the appropriate configuration file for download

- If a wrong variant is offered here, this can also be corrected manually via "choose another installer to download" d. the download starts automatically % f(x) = 0
- 2. after the download you have to integrate the configuration file via "Allow"

This website is trying to download a configuration profile. Do you want to allow this?	Profile Downloaded Review the profile in Settings app if you want to install it.
Ignore Allow	Close

3. Settings General Profile choose the new Eduroam profile
