geteduroam App for iOS and Android (EN)

For an easy configuration of eduroam for mobile devices you can use https://www.geteduroam.app/.

The geteduroam app replaces the "eduroam CAT" app from Android 11. Up to and including Android 10, we recommend installation via "eduroam CAT": https://play.google.com/store/apps/details? id=uk.ac.swansea.eduroamcat

Note: Setting up the eduroam configuration only works on the KU campus or at another institution that provides an eduroam network.

- 1) Download the geteduroam app:

2) Open the app, select "Katholische Universität Eichstätt-Ingolstadt" as the institution and then click on "Next".

3) Enter your user name. It is important to enter "@ku.de" after your user name.

Important: Even if your e-mail address contains a different prefix such as "@stud.ku.de" or "@ext.ku.de", "@ku.de" will be used for the configuration of eduroam.

Enter the corresponding password of your user ID in the password field and click on "Connect to Network".
