### Regarding the application procedure:

#### A) in our application portal:

- Please **do not register** or apply through the KU application portal

#### Instead apply

Please apply via <https://www.uni-assist.de/> with all required documents (digital uploads of originals or certified true copies) as soon as possible!

### Do I not need to send you my VPD?

We do not work with the VPS system. Once your documents have been successfully

checked, we will have access to them through uni-assist. Moreover, the result of the assessment will be made available to us, too.

We have installed the necessary interfaces between the two systems (uni-assist and the KU application portal). Thus, the interface will now create an applicant account for applicants who are formally fulfilling the basic admission requirements. Under this account, former communication between you as an applicant and the KU can be conducted.

**Deadline for application is 15 June.** The selection process will start soon after the deadline. According to the outcome, a ranking will be set up, and the limited number of places will be distributed according to this ranking. Therefore, please be aware, that **early admission is not possible.**

Applicants, who did not pass the first formal check of uni-assist, will not be taking part in the selection process. You will receive the corresponding notification from uni-assist.

Applicants, who were formally approved by uni-assist, will receive the notification of either their acceptance or their rejection through the KU application portal after the KU selection committee has set up the above-mentioned ranking list.

For further information regarding the admission requirements etc., please send an email to Mr. David Guevara under [welcome@ku.de](mailto:welcome@ku.de).

We are looking forward to receiving your application!
