

## Corona-Verdacht oder Corona-Fall bei KU-Beschäftigten *Was tun?*

**Mögliche Vorsichtsmaßnahmen**

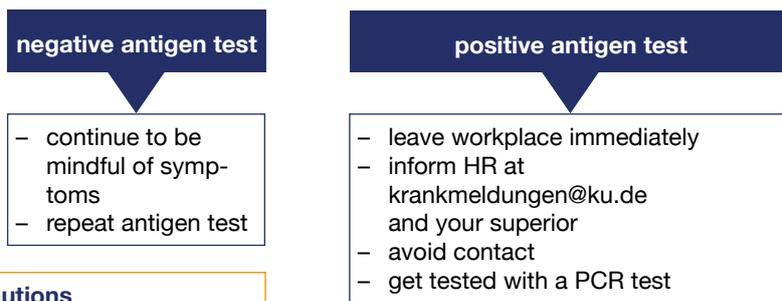

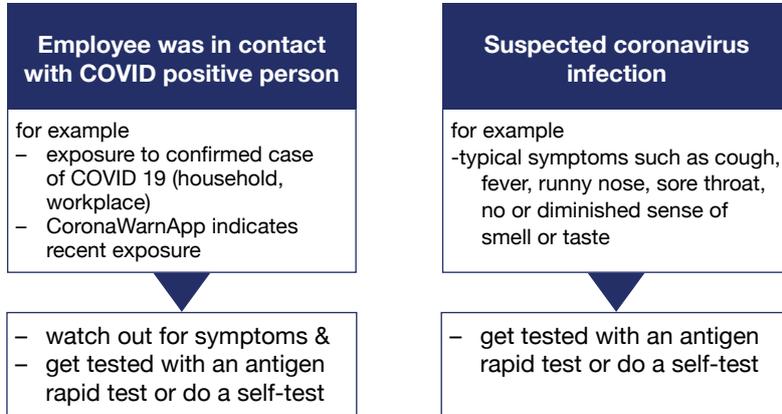

- Mitarbeiter/-in arbeitet nach Rücksprache mit dem/der Vorgesetzten für weitere drei Tage im Homeoffice, sofern die Tätigkeiten in Telearbeit erledigt werden können
- dabei tägliche Wiederholung der Antigen-Schnelltests/-Selbsttests

\*) Vollständig Geimpfte gelten nach Auskunft des Gesundheitsamtes nicht automatisch als Kontaktpersonen, die sich in Quarantäne begeben müssen.

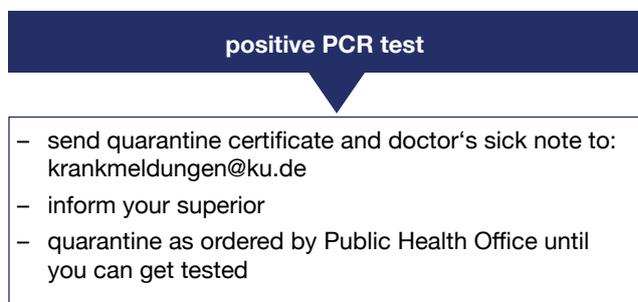

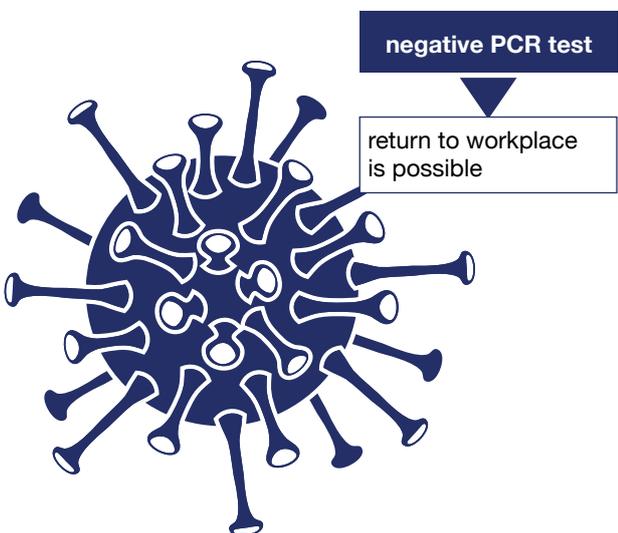

## Suspected or confirmed case of coronavirus in employees What is to be done?

**Possible Precautions**

- Employee continues to work from home for three more days as agreed with superior, if work can be done from home
- Employee continues to self-test or get tested with an antigen test daily during these days

- Employee continues to work from home until the PCR test result is available or
- If work from home is not possible in certain jobs: temporary paid leave of absence (Freistellung) as agreed between superior and Chancellor

- Employee gets a sick note from doctor due to their symptoms; send sick note to HR or
- work from home while you quarantine
- if work from home is not possible: temporary paid leave of absence (Freistellung) as agreed between superior and Chancellor

\*) Persons who are fully vaccinated are exempt from automatically being considered as contact persons having to quarantine.
