

Prepare for your professional life with the KU's Career Center

In collaboration with JobTeaser, the KU maintains its own multimedia job database called the **Career Center**. Under the following link you will find advertisements for graduate jobs, as well as listings for internships, part-time jobs, and volunteering opportunities in Germany and abroad. You can set the search criteria to match your personal profile.

The online **Career Center** also includes a wide range of company profiles to help you get an idea of what your potential employer is like. Information on training sessions and events run by the Career Service and the International Office's advisor for the international job market are also available.

To the **Career Center site**:
