"I owe a lot to the WFI. During my Master's degree study in "International Business Administration" I did not only benefit from the high-quality education, but also from the international network of the WFI. The many student organizations and events like the Consulting Cup or the Summer Challenge encourage a close solidarity among students and a high identification with the university. Due to the excellent education and two semesters abroad in Brazil and France, finding a job was easy for me. If you put an emphasis on an excellent student-teacher ratio, practice-oriented courses and close business contacts, don't hesitate to apply for the Master's course."
