Since April 2018, Prof. Brummer has been co-editor in chief of the magazine "Foreign Policy Analysis".

"Foreign Policy Analysis (FPA) provides a peer-reviewed outlet for the highest quality academic research into the processes, outcomes, and theories of foreign policy. Reflecting the diverse, comparative and multidisciplinary nature of the field, FPA provides an open forum for research publication that enhances the communication of concepts and ideas across theoretic, methodological, geographical, and disciplinary boundaries. By emphasizing accessibility of content for scholars of all perspectives and approaches in the editorial and review process, FPA serves as a source for efforts at theoretical and methodological integration and deepening the conceptual debates throughout this rich and complex research tradition."
