

Ausgewählte Veröffentlichungen

- *Optimal recovery by linear functionals*, Journal of Approximation Theory 44 (1985), 167-172.
- *On the real CF-method for polynomial and strong unicity constants*, Journal of Approximation theory 55 (1988), 86-102.
- With P.M.Gauthier, W.Hengartner: *Asymptotic maximum principles for subharmonic and plurisubharmonic functions*, Canadian Journal of Mathematics XL (1988), 477-486.
- *Local uniqueness in non-uniqueness spaces*, Approximation Theory and its Applications 4 (1988), 35-39.
- With E.B.Saff: *On the behavior of zeros and poles of best uniform polynomial and rational approximants*, in Nonlinear numerical methods and rational approximation (1988), 57-75.
- *A note on strong uniqueness constants*, Journal of Approximation Theory 58 (1989), 358-360.
- With P.B.Borwein, A.Kroo, E.B.Saff: *The density of alternation points in rational approximation*, in Proceedings of the American Mathematical Society 105 (1989), 881-888.
- *Ostrowski gaps, overconvergence and zeros of polynomials*, in Approximation Theory VI, Vol 1, 303-306.
- *On the zeros of sequences of polynomials*, Journal of Approximation Theory 61 (1990), 351-359.
- With H-P.Blatt: *Erdős-Turán theorems on a system of Jordan curves and arcs*, Constructive Approximation 7 (1991), 19-47.
- *Interpolation points and zeros of polynomials in approximation theory*, Habilitationsschrift (1992), Katholische Universität Eichstätt.
- With H.N. Mhaskar: *Detection of singularities using segment approximation*, Mathematics of Computation 59 (1992), 533-540.
- *Distribution of Interpolation Points*, Arkiv för Matematik 34 (1996), 103-117.
- *On the problem of Poreda*, Computational Methods and Function Theory (1997).
- With H.-P.Blatt, R.K.Kovacheva: *On sign changes in weighted polynomial L_1 -approximation*, Acta Mathematica Hungaricae 95 (2002), 309-322.
- With H.-P. Blatt, R.K. Kovacheva: *Poles and Alternation Points in Real Rational Chebyshev Approximation*, Computational Methods and Function Theory 3 (2003), 165-177.
- With H.-P. Blatt, R.K. Kovacheva: *Sequences with equi-distributed extreme points in uniform polynomial approximation*, Journal of Approximation Theory 126 (2004), 157-170.
- With M. Sommer: *Composing Circular Arcs with Minimal NURBS* (2008)
